EDUCATION

Bachelor of Computer Science

University of Florida, Gainesville, FL

May 2026

GPA: 3.94

Relevant Coursework: Data Structures, Algorithm Abstraction, Operating Systems, and Programming Language Concepts

SKILLS

- **Software & Tools:** Android Studio, Gradle, Unity, Microsoft Office, AWS, MongoDB
- **Programming Languages:** Python, C++, Node.js, NestJS, C#, React, Typescript, Rust, Javascript, HTML, CSS, SQL, Angular, .NET Maui
- **Certifications:** IBM Introduction to AI, Investment Acumen Certificate, AWS Cloud Practitioner (August 2025)

Relevant Experience

College to Corporate IT Intern, **Vanguard**

May 2025 – August 2025

- Improved portfolio management software of 1,200+ financial advisors by displaying stored data to Angular UI via a tailored API
- Collaborated with product owners and multiple software teams to develop the service through the whole software cycle from design to production

KeroKero Lead Developer, **UF Cross-Cultural Engineering in Kyoto, Japan**

May 2024 – July 2024

- Lead a team of UF and Kyoto University students in creating a mobile application to aid Kyoto city residents in natural disaster preparation
- Developed key features, including an interactive map of evacuation shelters, route-saving functionality, document storage, emergency contact management, and a natural disaster checklist, benefiting 1.5 million residents

Summer Immersion Program TA, **Girls Who Code**

June 2023 – July 2023

- Taught game design principles and programming concepts to over 120 high school girls using JavaScript and the P5Play Library
- Mentored a group of 16 students through the program while debugging and providing critical feedback
- Invited as a panelist for a Girls Who Code roundtable and asked to use video of my teaching lessons as a guiding educational (or instructional) media for future instructors to reference

Computer Science Summer Institute Scholar, **Google**

July 2022 – August 2022

- Collaborated in an introductory project-based HTML/CSS and JavaScript curriculum taught by Google Engineers to motivate the next generation of computer scientists
- Delivered a collaborative final project including a live demonstration for Google Employees and Community Leaders

Projects

WingCity, UF WING Hacks – **OpenAI, Unity, C#**

April 2024

- Designed a video game for women and non-binary individuals to receive mentorship on important subjects such as professional development and cultural identity
- Integrated OpenAI Api throughout the C# project for a total of 5 scenes utilizing a chatbot feature

Where's My Water, Verizon/University of Florida AI Days Hackathon – **TensorFlow, Python, Flask, ngrok API**

October 2023

- Awarded First Place and Most Popular out of 414 students for the AI Days Hackathon
- Designed a web application that tracked groundwater levels and predicted future levels of depletion based on user input

HIV PrEP Project, - **NodeJS, React, AWS, Synthesia**

August 2023 – August 2024

- Created an interactive chatbot for the Virtual Environments Research Group to answer questions about HIV PrEP by designing two virtual humans integrated with large-language models to lower the rate of HIV in young adult African Americans by providing a personalized experience

Leadership

Engineering Ambassador– **Herbert Wertheim College of Engineering**

January 2024 – Present

- Serve as a representative for the Herbert Wertheim College of Engineering by giving tours to prospective students and families, organizing engineering interest events, and assisting in the college's commencement ceremonies
- Redesigned and maintained the organization's website as 2024-2025 Webmaster, improving accessibility and usability through custom WordPress deployment

Director of Software – **Dream Team Engineering**

April 2024 – April 2025

- Assisted in software project management ranging from connecting with local healthcare facilities to creating brand new projects
- Managed over 30 undergraduate students in executing ideas and facilitating progress to make applications with a medical impact

Engineering Peer Advisor – **Herbert Wertheim College of Engineering**

September 2023 – Present

- Advises engineering students with walk-in and booked office hours to help them with their schedule, investigate involvement opportunities, and answer any questions they have
- Speak at panels of around 50 prospective students and families for the College of Engineering with collegiate advisors
